ANNEXURE - IX

ALLIED PIPING SOLUTIONS

Line of Activities

*** laying * plant piping * header connectivity**

⇨ Underground piping / Aboveground piping / Station piping and Allied job profiles.

- Other Fabrication Profiles (Workshop / Onsite) ⇨ Radiography Test, ⇨ Ultrasonic Test, ⇨ Magnetic Particle Test, ⇨ D.P.T.
- Qualified ⇨ WPS / PQR Procedure ⇨ duly approved by Third Party Inspection Agency.
- Man Power ⇨ Welders – Fitters – Turners – Grinders – NDT Level – II
- X - ray viewers – Hardness Tester
- Heat – Treatment In house / Outside
- Burst Test / Proof Test Facilities
- Hydrostatical Test Bench – In house and Portable ⇨ complete attachment.
- Periodical Training program are conducted for advance Technical awareness to staff
- Pig Passing Test arrangement
- Cutting – Heavy duty hacksaw machine – Plazma Cutter- Gas Cutter assembly
- Plate Rolling Facilities to make the Shell
- Hydraulic Power Press – Dish Ends
- Hydra – Heavy material handling
- Drilling machine
- Boring machine
- Sufficient Rectifiers, Dryers, Ovens, DG Sets for Uninterrupted Quality Production
- All instruments, equipments and machines are calibrated
- Sandblasting – Spray painting (EPOXY)
- Special Job Profile ⇨ Jackatet Piping assemblies with accessories like pipe Fitting / Flange / Valves etc.
- Hot insulation
- Lining and Coating
